

I am very upset that Sinclair Broadcasting is planning to air an illegal, partisan political attack on John Kerry (without providing "equal time" for either a positive piece about Kerry or a similarly negative piece about George Bush).

I am asking that you pull the plug on this operation right away.

Similar to the emergency nature of the Supreme Court decision in 2000 to halt a recount in Florida, immediate action must be taken by the FCC in order to stop the unfair manipulation of the political process.

It does not matter which political side any one of us are on. This is about following laws, and allowing for a fair election during one of the most divided times in the history of the United States.

Thank you.

Sincerely, Michael McGinnis
